# ABOUT QUADX 6299

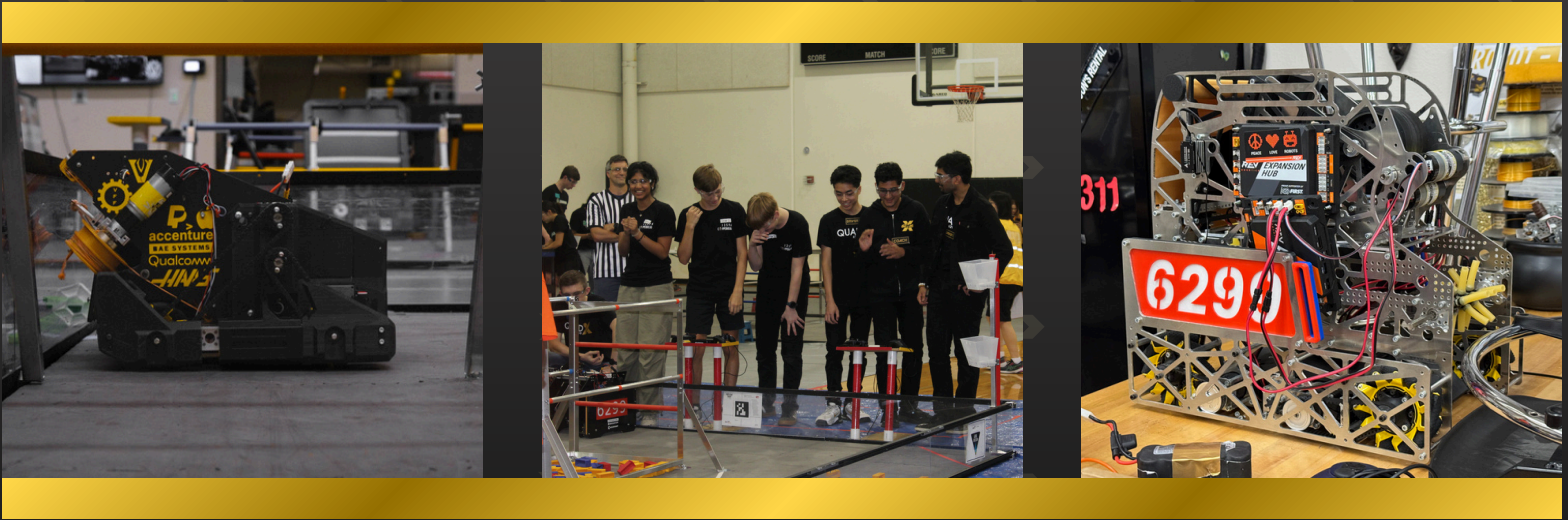

QuadX 6299 is an FTC team based out of Austin, Texas at Vandegrift high school. Our team was founded in 2012. We have 12 members in our team. We have 5 hardware members, 4 software members, and 3 marketing members.

## Our Accomplishments

- Started 2 FTC teams in South Africa that have been thriving for 5 years
- Launched a community FTC team in Steiner Ranch and mentors 7 students
- Advanced to the FIRST World Championships 7 times
- Impacted 175 students last year by introducing them to STEM
- Raised \$1300 to buy 2 GoBuilda starter kits for kids in Rwanda

**FIRST Robotics is a nonprofit organization founded in 1989 for 7-12<sup>th</sup> graders. FIRST aids in the engagement of young people in science, engineering, and technology skills. a wide range of life skills are also learned with the help of FIRST, such as self confidence. The environment of FIRST also helps students to gain experience in a workspace that has a great impact on their future careers in the job market.**

**FIRST Tech Challenge (FTC) is a robotics competition for teams of students in grades 7–12 to design, build, and program a robot that fits within an 18x18x18 inch frame. The competition season starts with a new game challenge, and teams typically have 3 weeks for design, followed by several weeks for building and testing their robot. Events progress from local league meets to regional and world championships.**

# OUTREACH

## TEAM CREATION

We are creating a new FTC team for 7 local middle schoolers and mentor them.

## STEM NIGHTS

Our team visits local STEM nights to encourage students to learn about STEM and join FIRST. We impacted 175+ students this year.

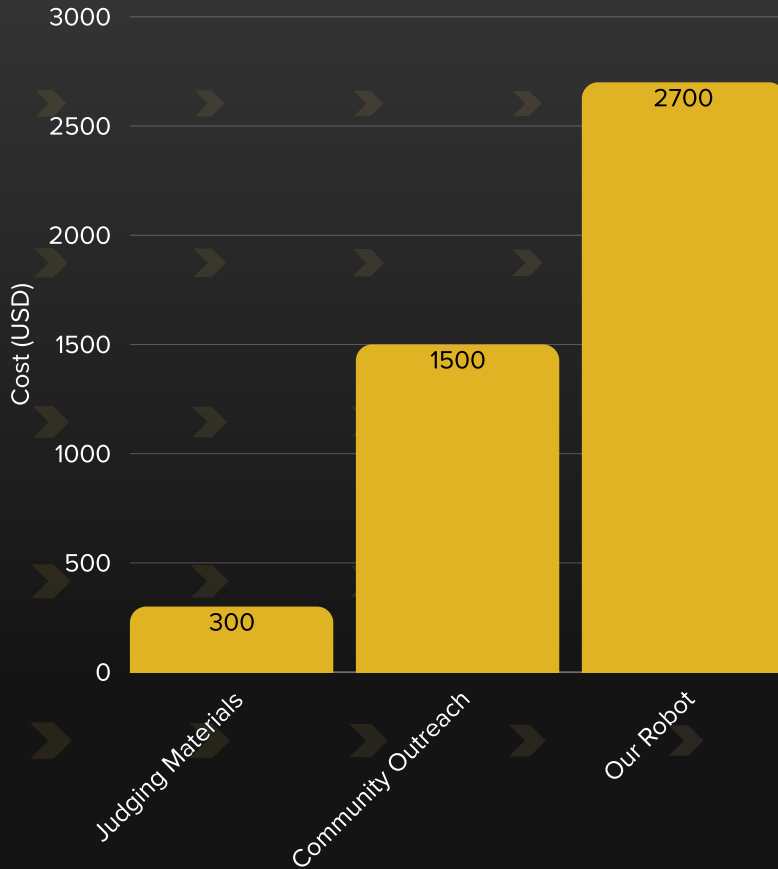

## COMPANY TOURS

Our team tours engineering and software companies like Tesla and Amazon to learn about robotics and hardware.

# WHY SPONSOR US

## Our Budget

Sponsoring our team allows us to have access to many resources which will support our team.

While this includes funding for our robot, sponsoring us can allow us to have larger outreach activities than we have the resources to do currently.

To the left is our current budget this year.

## WHAT YOU GET BY SPONSORING OUR TEAM

- Gain exposure for your company at our competitions
- Increased brand reputation and marketing opportunities
- Support of our outreach initiatives of recruiting the younger generation into STEM
- Recruitment pipeline of dedicated robotics, STEM, and business students for future internship or employment opportunities
